1. Face mask can be avoided, if the product is not marked with H332, H334 or H335 (phrases that refer to danger or irritation by inhalation)
 2. The combined filter A2P2 can be replaced by a filter of the type P2, if the product does not contain volatile substances or organic solvents

3. Face mask can be avoided, if:
 • The product is not marked with H332, H334 or H335 or
 • The product is marked with H332, H334 or H335, and is used when diluted more than a hundred times
 4. Not relevant for this guidance

5. Face mask can be avoided, if:
 • The product is not marked with H332, H334 or H335 or
 • The product is marked with H332, H334 or H335, but is used when diluted ten times
 6. Not relevant for this guidance

7. Face mask can be avoided, if:
 • The product is not marked with H332, H334 or H335 and the ready for use mixture contains maximum 5% volatile substances or organic solvents or
 • The product is marked with H332, H334 or H335, but is used when diluted more than a hundred times
 8. Not relevant for this guidance

OUTDOOR - Special methods of application

- Guidance to personal protective equipment

If the application requires more comprehensive personal protection equipment than the mixture, put them on from the start as it is inappropriate to change one's personal protective equipment between the mixing and application.

Application of products

Hazard pictograms and hazard phrases

In connection with at least one of following risk phrases:

H310 H350i H361d
H311 H351 H361f
H330 H360D H362
H331 H360DF H370
H340 H360F H371
H341 H360Fd H372
H350 H360FD H373

Possibly together with other hazard phrases than mentioned above or without hazard phrases

Authorised products without category of danger
